Study Purpose

- Identify congestion mitigation and safety improvements
- Enhance transit rider, bicyclist, and pedestrian experience
- Develop short-term multimodal improvements for immediate implementation
- Identify longer-term improvements for project development
- Be consistent with NEPA

4

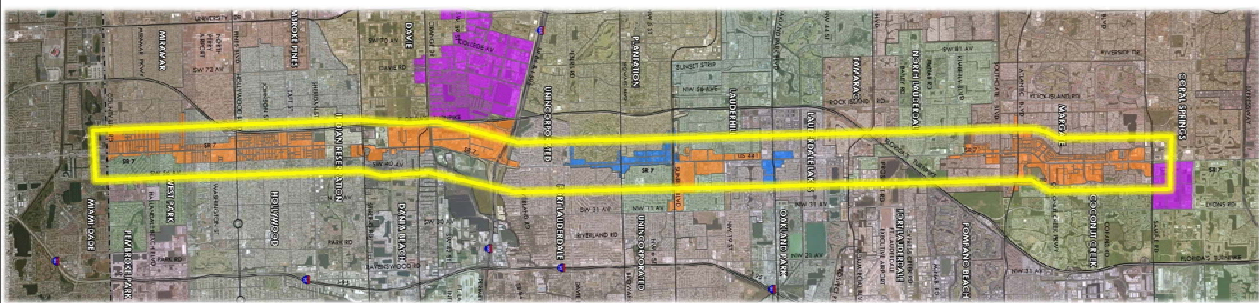

Study Need

- Identified as a regionally significant project in 2040 LRTP
- Over 20,000 transit riders a day
- Several congested intersections/roadway segments
- Several high crash locations, including bicycle and pedestrian crash clusters.

5

Study Area

- South of Miami/Dade County Line to North of Sample Road
- Approximately 1/2 Mile on either side of SR 7 (or logical extents)
- Includes consideration of operations at Golden Glades Intermodal Center
